

## **The Villages Golf & Country Club** **Week of January 4, 2021 – January 10, 2021**

So far in the new year we have had good winter weather for golf with just one brief shower. Our rainfall totals have fallen below 40% of the average since September. With the low rainfall and low morning temperatures it has been challenging germinating seed. However, we are seeing some consistent germination in the areas we have topped with seed mulch.

**Landscapes at 5 Tee cleaned up - before and after**

### **Tasks in Progress/Completed**

- Greens – groomed 2X
- Inter-seed and fertilize localized turf areas
- Tree work
- Edge cart paths
- Wind storm cleanup
- Valve box edging
